## **Nomination of Dr. Jörg Swetina as candidate for the Position 3GPP TSG SA1 Vice-Chairman**

Dear Susanna and Alain,

NEC Europe Ltd. is pleased to nominate Dr. Jörg Swetina for a second period for the position of a Vice-Chairman of the 3GPP TSG SA Working Group 1.

Jörg studied Chemistry and Mathematics at the University in Vienna, Austria and received his PhD in Theoretical Chemistry. After graduation he continued to conduct research in this field as an assistant professor.

From 1990 to 1998 he worked for Siemens Austria leading a software development team dealing with GSM. Between 1998 and 2007 he represented Siemens and Nokia Siemens Networks as a delegate in mobile communications standardisation bodies like ETSI SMG, 3GPP and OMA.

In 3GPP SA1 Jörg started his participation in 1999 and has since then been actively contributing to this working group. For his first period as a vice-chair he was elected in January 2008.

His solid technical background associated with managing skills and a long experience in SA1 give him the necessary qualification as a Vice-Chairman in 3GPP SA1. His long-term background on requirements work and his commitment to this field will be an asset to the SA1 leadership.

Our support for Jörg as a candidate is based on our commitment to the 3GPP standards process, evidenced by our active contribution in 3GPP, OMA and other SDOs. In the event that Jörg is successful, NEC Europe Ltd. will provide the necessary support for him to allow him to undertake the role as SA1 Vice-Chairman.

Sincerely yours,

<Signed electronically, Heinrich Stüttgen>

Dr. Heinrich Stüttgen  
Vice-President NEC Laboratories, NEC Europe Ltd.
